PC SPECIALIST CUSTOMER INFORMATION

(as of January 1st, 2006; "I" and "my" refer to the customer)

DATA

(CRITICAL NOTE: Those of you with Servers, it is **imperative** that you check your server daily for error messages or other anomalies. Please make certain your computers are physically secure, meaning they are either bolted to the floor, secured in a safe, locked room, or in some other way made impossible to run off with, and that all external drives and removable media are similarly secured. Please make certain your data backups are up to date, and that the backups can reliably be restored [In other words, test your backups!]. It is impossible for me to constantly monitor all of my clients, so be advised that it is your responsibility to ensure these requirements are fulfilled.)

As a customer of PC Specialist, I understand that any time a computer is turned on or the case opened there is a possibility of data loss, and that it is the customer's responsibility to maintain a current and reliable backup of all important data; and that it is the customer's responsibility to insure that they have legal access to all programs that may need to be re-installed and that the installation of these programs is in accordance with the manufacturer's licensing agreements. I further understand that Elliot Namay cannot be held responsible for any data loss resulting from required actions taken on his part.

TRIAGE

Regrettably, sometimes scheduled appointments must be re-scheduled to accommodate emergencies. Priority must be given first to existing clients over new customers; systems provided by PC Specialist, Inc. over other manufacturer's systems; non-functional businesses over inconvenienced businesses or residences. Thank you for your understanding.

CHARGES

As a customer of PC Specialist, I understand that the current charge is \$90.00 per hour – with a 1 hour minimum charge – (\$135.00 per hour after hours and emergency rush appointments; \$180.00 per hour after 8:00p.m. M-F, and weekends and holidays), which may be raised at any time, and that charges may be due at the time services are rendered, payable by cash or check only. I further understand that these charges are for Elliot Namay's knowledge, experience and expertise, and will be incurred whether that time is spent in consultation, actual technological service, or travel beyond 15 minutes from the previous location. I further understand that non-warranty technical support conducted over the telephone or by remote access – whether it be for software or hardware – will be charged in 15 minute increments at the same rate, as will consultation with other suppliers on behalf of the customer. I further understand that all hardware items must be paid for, at Elliot Namay's discretion, either when the order is placed or immediately upon receipt.

WARRANTIES

As a customer of PC Specialist, I understand that all warranties cover system hardware only (*only components within the computer case itself. Monitors, printers, and other external peripherals are covered under the individual manufacturer's warranty*) and that time involved in replacing warranted components will be charged at the current on-site rate (*except where on-site warranty applies*). I further understand that all technological equipment suffers from the possibility of failure, and even though Elliot Namay provides the highest quality appropriate equipment, the possibility exists that it may fail. I further understand that even though every attempt will be made to replace defective equipment as soon as possible, delays are sometimes inevitable, and that Elliot Namay can not be held responsible for lost time or productivity due to such failures or delays. **Software problems are the responsibility of the software manufacturers, and are not covered under warranty.**

SYSTEM INSTALLATION

As a customer of PC Specialist, I understand that delivery and installation included with system purchases is for the area within 15 minutes of downtown Charleston only, and that outside of this area travel time will be charged. I further understand that the included installation is up to one-half hour, and includes only insuring that the system is connected and running properly. I further understand that any additional services such as instruction, data transfer, Internet connection, or peripheral connection or configuration may be charged at the current on-site rate.

FINANCE CHARGES

As a customer of PC Specialist, I understand that I am responsible for a finance charge on any unpaid balance beginning on the original invoice date and charged for every day past 30 days from invoice date.

RETURNS

Returns on systems will only be accepted within the first 7 days after installation. Special order items are not returnable.

~ FINAL WORD FROM ELLIOT ~

Computers and associated technologies can be wonderful tools, but also can be extremely frustrating. I don't create the problems – I fix them. No misplaced aggression, please...
